Hindalco Industries Limited, the metals flagship company of the Aditya Birla Group, is an industry leader in aluminium and copper.

A metals powerhouse with a consolidated turnover of over US $18 billion, Hindalco is the world’s largest aluminium rolling company and one of the biggest producers of primary aluminium in Asia. Its copper smelter is the world’s largest custom smelter at a single location.

Novelis is the leading producer of flat-rolled aluminium products and the world’s largest recycler of aluminium. It is a subsidiary of Hindalco Industries Limited, an industry leader in aluminium, copper and metals. Novelis customers include some of the largest and best-known automotive, beverage can, architecture and consumer electronics brands.

Hindalco Industries Limited, recently acquired Aleris by its wholly-owned subsidiary Novelis Inc. The acquisition of the US-based rolled products major, Aleris Corporation, positions Hindalco as one of the world’s largest aluminium companies, with a global footprint spanning 49 state-of-the-art manufacturing facilities in North America, Europe and Asia. This acquisition Marks Novelis’ entry into the high-end aerospace segment.

In US $48.3 billion Indian Multinational Corporation, Aditya Birla Group is in the league of Fortune 500 with a multicultural team of 1,20,000 people representing 42 nationalities. The Group’s operations are spread across 35 countries. Over 50 percent of the Aditya Birla Group’s revenues flow from its overseas operations.
Freshwrapp is a part of the foil and packaging business of Hindalco Industries Ltd. By offering a healthy and hygienic alternative to traditional food-packaging methods, it has transformed Freshwrapp into a power brand in the aluminium foil category. Freshwrapp has created a number of products that cater to the needs of a market ranging from individual families to hotels, restaurants and catering businesses. Serving more than 1.2 million customers per month, brands like Freshwrapp and Superwrap now have a place in almost every kitchen.
Freshwrapp foils are available in a range of sizes and quantities, Freshwrapp aluminium foil is your ideal companion in the kitchen. Tailored to meet your unique needs, it can be used for everything from wrapping, storing, cooking and freezing to serving food in style - keeping your kitchen mess free and your food tasty.

Presenting our new Freshwrapp foils & packs
Hindalco Freshwrapp Aluminium has been an essential part of your kitchen for decades and it is time to take it to the next level by launching the new and improved foils and containers with the Freshlock Shield.

What is the new Freshlock Shield?
Keeping our promise of utmost freshness, the Freshlock Shield is a certification of safety claiming to keep your food fresh for longer.

Three step freshness with Freshlock Shield -

1 Protects food keeping the freshness intact - One thing we all worry about when we make a delicious meal is keeping it fresh throughout the day without it getting stale. Freshlock Shield’s key feature helps the customers keep their cooked food fresh for a long time.

2 Maintains food aroma, flavour and texture - Meals that are cooked should not just remain fresh but also should be able to retain their goodness. The new Freshlock Shield helps maintain these factors and keeps your food flavourful and aromatic for a long time.

3 Acts like a protective barrier against bacterial growth - May it be any season, freshly cooked food can get spoiled easily due to bacterial growth. But not with the new Freshlock Shield that keeps all bacteria away from your food making it safe and healthy to eat, always.

So are you ready to experience fresh meals?
The new Freshwrapp with Freshlock Shield has been tested in NABL approved labs. It has also compliant to the Bureau of Indian standards of food packaging, making it the perfect solution for wrapping, storing, packing and cooking.

In conclusion, it is the perfect choice to keep your food fresh.

DIRECTIONS TO USE FRESHWRAPP FOILS & CONTAINERS

Wrapping & Packing Application - Freshwrapp 11 microns & 18 microns Aluminium foil

1. Avoid packing food that is very hot.
2. Seal tightly to maintain the aroma & flavour of the food.
3. Seal tightly to avoid bacterial growth.
4. Wrap or pack food only for 8-10 hours and not beyond that.
5. If you need to store packed/wrapped food beyond 10 hours, store it in a refrigerator.
6. Avoid storing salty and tangy foods.
7. Do not use it in a microwave.
8. It can be used in an oven, toaster and griller.
9. Wash and dispose it in a dry bin to make it is easily recyclable.

Storing Application - Freshwrapp 11 microns & 18 microns Aluminium foil

1. Fresh or leftover foods can be stored in containers. Raw foods should be wrapped and stored in containers.
2. Wrap or pack food only for 8-10 hours and not beyond that.
3. If you need to store packed/wrapped food beyond 10 hours, store it in a refrigerator.
4. Seal tightly to maintain the aroma & flavour of the food.
5. Seal tightly to avoid bacterial growth.
6. Avoid storing salty and tangy foods.
7. Stored food can be re-heated in OTG with foil.
8. Wash and dispose it in a dry bin to make it is easily recyclable.

Cooking Application - Freshwrapp 18-microns Aluminium foil

1. Cooking methods like baking/grilling/roasting/freezing are suitable.
2. Cook/bake the food between 40°C to 220°C.
3. Seal tightly to maintain the aroma & flavour of the food.
4. Seal tightly to avoid bacterial growth.
5. Avoid storing salty and tangy foods.
6. The foil can be used in an oven, toaster and grilled to warm or cook food.
7. Only use the Convection Mode in the microwave.
8. Wash and dispose it in a dry bin to make it is easily recyclable.
